SOUTH CEDAR GREENHOUSES

23111 Cedar Avenue South • Farmington, MN 55024 • 952-469-3202 • Fax 952-469-5335

Greetings

Once again we're optimistically greeting a new year.

As always, we've been doing our research and trying to stay abreast of all that's new and interesting in the plant world. Hopefully, the customers are reading and hearing about the new introductions and will be looking to you to provide them. The newer plants in the pricelist are marked with a diamond symbol.

We continue to see growth in rain garden and native plants. We've been able to work with many of our landscapers to grow what they need to win the bids for these types of gardens. We've found that local governments have been getting involved in the planting of rain gardens, in particular. Check out the list inside the back cover for a sample of some of the plants that we're able to grow. With adequate leadtime, we can supply almost any native plant in quantity. Contact Mark for assistance in these areas.

We continue to be enthusiastic about ornamental grasses. We're seeing them everywhere in the landscape and we continue to add to our list of varieties. We've increasingly been custom-growing large numbers of ornamental grasses for our landscape customers.

As you know, we grow a very wide variety of plants to meet customers needs. We try to be a one-stop wholesale supplier for some of our smaller garden center customers. Larger garden centers have their product favorites and depend on us for these favorites and for our new introductions year after year.

We have been able to reduce prices in several areas. In particular, you may want to check our our new lower prices on many of our premium perennials and hosta.

Let's all hope for some excellent spring weather and for a more cheerful economy. We look forward to working with you to create a successful 2012 season.

Thank you for your business.

Al Leipnitz
